

List of Resource Partners

NetWork Kansas works with more than 450 Resource Partners statewide that are public sector or non-profit organizations providing business-building services to entrepreneurs and small businesses. NetWork Kansas provides a conduit that bridges the entrepreneur or small business owner with the right resources---at the right time.

When an entrepreneur calls our toll-free number, a NetWork Kansas referral coordinator conducts a "listen and learn" session to determine the client's exact needs. Once these needs are understood, our coordinator taps into a unique database of Resource Partners to identify the best organization to fulfill their needs. After a connection is made between the client and the appropriate partner(s), a NetWork Kansas referral coordinator tracks progress and engages additional resources, as required.
